June 27, 2014

Dear Valued Business Partner:

On April 1, 2014, CareFusion announced the completion of its acquisition of the Vital Signs division of GE Healthcare globally.* [CareFusion](#) is a \$3.6 billion global corporation serving the health care industry with products and services that help hospitals measurably improve safety and lower the cost of care. The combination of our companies creates an industry leader in single-patient-use consumables for respiratory care and anesthesiology, as well as temperature management and hemodynamic monitoring products.

Together, CareFusion and Vital Signs have the R&D, manufacturing and go-to-market resources to drive innovation, invest for growth and better support customers in major global markets. We have created a focused, global leader that is core to CareFusion and leverages the strengths of each organization.

Vital Signs has a history of innovation and expertise in anesthesia, matching CareFusion's history of innovation and expertise in respiratory. The combined organization will have a broad product line, which will include circuits for oxygen and anesthesia, humidification, masks, endotracheal tubes, filters, pressure infusers, temperature management and blood flow monitoring consumables.

Because of the nature of this transaction, the integration of Vital Signs into CareFusion is a gradual process that will happen over time. Nothing is changing as of today, and you will continue to do business with Vital Signs as you have in the past. From product ordering to invoice processing and customer service, we will continue to operate in our normal course of business, and the terms and conditions of our agreements are unchanged.

When the integration creates a change in the future, we will be sure to communicate to you well in advance to minimize any disruption. If you have any questions, please reach out to your Vital Signs representative, and as always, we appreciate the opportunity to work with you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gord LaFortune", with a stylized flourish at the end.

Gord LaFortune
Executive Vice President, EMEA/ANZ Commercial Operations
